### LAST MEETING

Wondai State Forest Meeting Sunday 20/5/07

**By Michael Haskard**  
**Photos by Jim Wolz**

The meeting was held in a large gravel scrape near one of the main entrances to the Wondai State Forest. Business was started at 10:05am with Caroline as Chairman, Joanne taking minutes, Col as our new Treasurer, with 10 other members present. Many items were covered with excellent participation from members, and the meeting closed at 11:45 am.

We then had a fun and lively raffle, with quality produce and plants as prizes, followed by lunch. After a discussion about where to go, and what to see, we WALKED into the forest along the road looking at plants for approximately 150 metres. Then we turned right onto an old, downhill logging track (why do we always go downhill first?), looking at several small *Dodonaea triangularis* (Hop Bush), which had minute flowers.

As we were wandering about, George spotted an Assassin Bug (Family Reduviidae) on a wattle.

#### SGAP CONTACTS

**Chairperson: Anne Windsor, Ph: 4164 4002**

**Secretary: Caroline Haskard, Ph: 4163 5090**

**Editor: Kathy Julian, Ph: 4168 9110**

This was approximately 20mm in length and black with a rather bright red back, which flew away before Jim could take a photograph. This insect has an extremely painful bite caused from the injection of powerful saliva, which it uses to paralyse prey, prior to sucking up body fluids. George warned us, "do not try to touch them".

As we continued our meander through the forest, two of the highlights were an amazing prostrate specimen of *Psydrax odorata* subsp. *buxifolia*, and an extensive grove of *Olearia elliptica*. I remember on a previous visit to Wondai State Forest that some members wondered if the *Olearia* was in fact Groundsel Bush. Where was Caroline when we needed her then? Gallivanting around the bushland at the Sunshine Coast with another member, who shall remain nameless, and apparently spontaneously deciding to plan mystery bus trips for the rest of us!

We saw, as usual, heaps of interesting plants and natural beauty, amongst them some large *Corymbia citriodora* subsp. *variegata* (Spotted Gums). After browsing for a couple of hours, a few members walked back to their cars. The rest of us circled back around towards the meeting site, and found a stunning, quite low growing, and broad-spreading *Acrotiche aggregata*. We eventually made it back to the cars for another cuppa and a yarn leaving for home around 4:00 pm.

The day was rather cloudy but once again, it did not rain. I considered this an interesting and enjoyable day out. It was also good that someone had their traverse and collection permits handy – just in case we actually had time to drive anywhere in the forest!

Name that plant!

*Psydrax odorata* subsp. *buxifolia* forma 'prostrata'

Absolutely amazing aggregation of *Acrotiche aggregata*

Who has the traverse permit?

## PLANTS FOR SALE

Tubestock @ \$2.00 each

50 *Eucalyptus longirostrata* 25-30 cm tall

## A Word From The Chair

Here is a photographic update of some of our recent (and not so recent) activities:

Firstly, our stall at the Barambah Garden Festival – the display in the background was quite extensive – we had approximately 40 wonderful plants on show – local prickly species ideal for small bird and mammal habitat, along with our photo display boards and fact sheets. The photo blockers in front were attending to the plant sales table. The venue at Murgon was ideal, with plenty of space but sadly, just too few attendees.

*Barambah Garden Show, April 2007 Photo Jim Wolz*

Secondly, an update on the plantings at Memerambi Transfer Station - Caroline and I visited on May 22 and were absolutely delighted with the progress of all plants. The photos below illustrate the progress to date – no before photos of the Buffer area, but progress has definitely been made.

*Two areas of the Buffer Planting Photos Anne Windsor*

On the following page are the before and after photos of the Strip and Display gardens. Inside the sleeves all plants look very good, and I am sure some more impressive pictures will come to hand in the spring when the sleeves are removed. Again, thanks to all of you who were involved.

At the last meeting it was proposed that members should indicate their interest in participating in our two bus trips scheduled for later this year. The first is our mystery trip on Saturday 20 October and the second is our Christmas breakup trip to Fairhill on Saturday 15 December. Could all members who have not yet indicated they are interested in participating in one or both of these trips please let Caroline or me know as soon as possible. We need to make a booking and the size of bus required and cost will be contingent upon numbers. Thanks.

Further, members were also asked to sign up for participation in our National Threatened Species Day (NTSD) week at Woolworths Plaza, so this sheet will be circulated at our next outing, or members could contact us. And the final item is for anyone interested in participating in a First Aid course to let us know, as a class will be scheduled later in the year.

Finally, attached to this NL is an updated list of carers from the Wildlife Wanderers Carers Group. I recently had the need for assistance from a wildlife carer and thought it would be beneficial for all our members to have access to this list too.

*Anne.*

#### 5. General Business

##### Business arising from Correspondence

5.1 **Discussion:** Tessmans Road – thanks for letters submitted to Kingaroy Shire Council. Unfortunately no response received as yet. A visit with botanist from Queensland Herbarium resulted in establishing that the prime example of *Denhamia parvifolia* was no longer in existence. Other disturbing activities have taken place within the region though fresh traces of the Black-breasted Button-quail have been found. Qld Herbarium have asked Caroline to seek out and report on threatened species within the district

**Motion:** That a copy of Caroline's letter to KSC be sent to appropriate State and Federal Environment Ministers

**Moved/seconded** Linda/Anne Carried

5.2 **Discussion:** Jim advised status of Fuel Raffle: Ryke Fuel have donated 50% of fuel value (total prize \$250.00) and an Agreement has been signed with them. Tickets have been printed and handed to members. Tickets \$1.00 each, to be closed 15th July. Invoice for printing \$165.00. Will ask Dorothy Pratt to draw prize, alternately Mr Ryke. Unfinished ticket books to be returned to Jim as soon as members know they are unable to sell them, so they can be distributed to members who can sell them

**Motion:** That the invoices associated with the fuel raffle be submitted to Treasurer for reimbursement

**Moved/seconded** Jim/Linda Carried

5.3 **Discussion:** Rainforest Recovery Forum Registration Package received. Trip to Brisbane is expected to provide an opportunity to discuss conference matters with experienced convenors. Caroline's presentation listed for 3:00 pm on second day (Session 11). Anne to attend also – funding to attend previously approved. Gold Coast Hinterland Field Trip chosen for the third day

Registration forms are available for anyone who would like to attend

5.4 **Discussion:** Caroline has submitted an Event Sponsorship application with the BMRG, and a funding application with the KSC to assist with our NTSD display at Kingaroy Shoppingworld in September

5.5 **Advice:** A cheque for \$500.00 required for payment of our booking at Shoppingworld for the NTSD display

5.6 **Discussion:** Rob Cormack previously offered to make Nest Boxes for a raffle. Jim and Rob to discuss for NTSD

#### **Business arising from Treasurer's Report**

5.7 **Motion:** That we abolish separate accumulation of funds for Christmas break-ups, and that such expenses be paid from general revenue, with the current limit of \$150.00 to remain

**Moved/seconded** Jim/Michael Carried

#### **Other Business**

5.8 **Information:** South Burnett Local Govt Cluster – an abbreviated NRM project has now been approved by the BMRG. Funding for the biodiversity component was reduced due to concerns regarding capacity to deliver outcomes

5.9 **Information:** Caroline Haskard and Anne Windsor attended a 2-day, regional, 'Back on Track' workshop organised by the BMRG and EPA in Gympie recently, which concentrated on prioritising threatened species in the Burnett Mary region, and identification and prioritisation of threats to those species.

Following this, Caroline and Anne spent the next week and a half preparing two submissions for nomination under the federal *Environment Protection for Biodiversity Conservation Act 1999 (EPBC)* for 2 of our most threatened local plant species – *Phebalium distans* and *Lasiopetalum* sp. Proston. This process can take up to 12 months to complete, so it may be a long wait

Special thanks to Caroline and Anne for the work and effort they put into this project

5.10 **Discussion:** The plenary session re Qld SGAP Conference in 2008 was held at the SB Enterprise Centre with 10 people attending. A sub-committee sign-up sheet was handed around for people to indicate their participation. An executive decision was made to assist Treasurer Col and appoint Michael Haskard as Special Projects Finance Officer to help manage special activities and projects such as the Conference

5.11 **Discussion:** Risk Management workshop coming up in Brisbane on 20 June. Suggestion put forward by Barb Paterson that Michael Haskard, Jim Wolz and George Venz attend. George unable to attend and nil other interested individuals. The Branch will reimburse all expenses upon receipt of invoices

5.12 **Discussion:** Rob Cormack enquired about shirts and nametags. New nametags are prepared each year when memberships are assumed complete. Embroidery and purchase of shirts being organised by the Chair – interested members to contact Anne direct. Special engraved name tags will be purchased for all members participating in Branch displays, promotional, or other representative activities

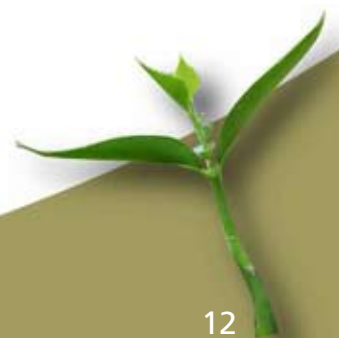

5.13 **Discussion:** Outings for Oct/Nov have been swapped. The Mystery Bus Tour now scheduled for October, and Coalstoun Lakes for November. A notice to this effect will be included in the next newsletter. Expression of Interest (EOIs) sign-up sheets were distributed for the Mystery Tour and Christmas break-up bus tours to establish what size bus to book

5.14 **Discussion:** As requested Barb Patterson ascertained and reported on group costs for interested members to undertake training for a Senior First Aid Certificates. A minimum of 8 members are required to organise private training for our group. Cost is approx \$125.00, and an EOI was circulated during the meeting. If you were not at the meeting and wish to complete your First Aid training, please contact Caroline. Once numbers are confirmed funding can be sought, so please do not delay in registering your interest

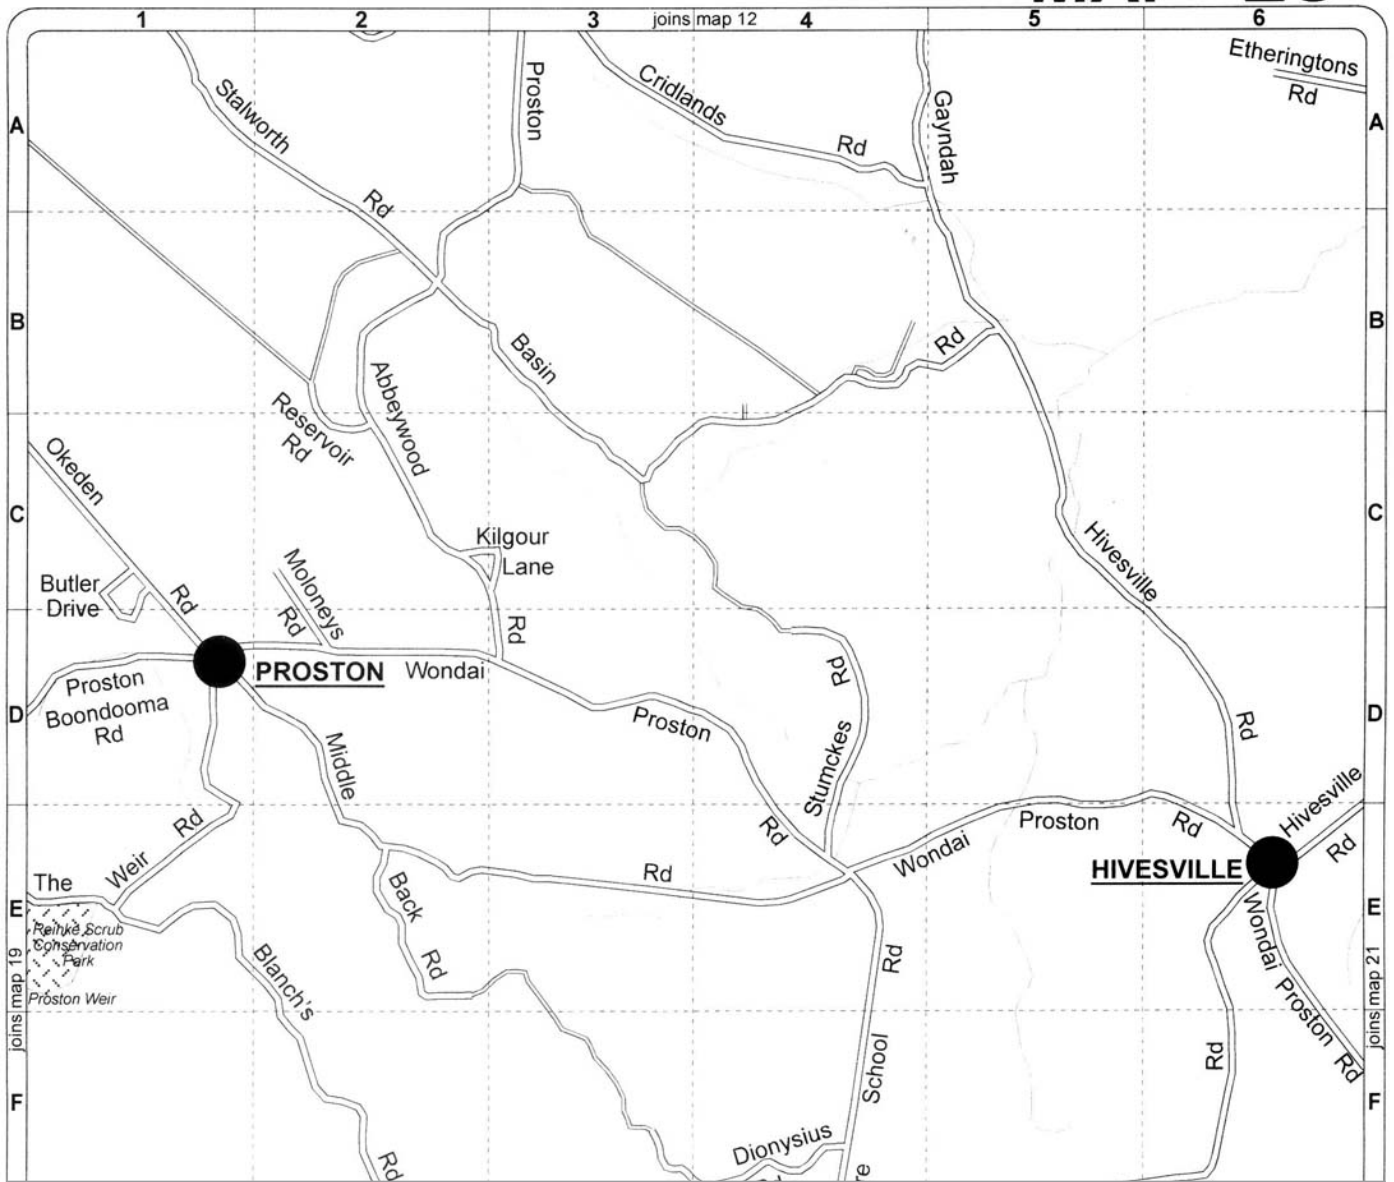

5.15 **Information:** Barambah Garden Festival was not a successful event; however, following Caroline's talk with the Wondai Garden Club we could consider participating in next year's event. Due to the existing September schedule Caroline suggested that she and Anne would not be participating in the Wondai Spring Garden Festival – although other members are more than welcome to organise a stall

- 5.16**Information:** Meeting planned with KSC to visit and inspect progress of plantings at Memerambi Transfer Station on Tuesday 22 May
- 5.17**Information:** Rob advised that the FEAT Blackbutt day was very quiet – this was the same weekend as the Wondai Autumn Garden Festival
- 5.18**Information:** Harry advised that concern has been expressed that the cycad population near Boondooma could be severely impacted by proposed uranium mining
- 5.19**Information:** Linda Venz suggested that given all that has been happening, that it might be a good time to develop a workshop on how to collect, prepare and send plant samples to the Queensland Herbarium. January is a good time as there is no scheduled activity
- 5.20**Information:** Jim Wolz advised he will be seeking various business sponsorships for our Branch to assist with the general running of our organisation and for special projects
- 5.21**Information:** **Joanne Wallace will Chair the next meeting** on July 15th at Jean Green's place, and **Linda Venz will act as Minutes Secretary**. Michael Haskard will write an internal report on today's outing for the NL

**Meeting closed:** 11:45 am

**Listed as endangered under the EPBC, *Zieria verrucosa* in this area is known to occur at Reinke Scrub and Speedwell Range. See next page for species list.**
